About Me

5+ years of experience in Angular and software development, I have a proven track record of success in developing robust software solutions. I am skilled in Angular, JavaScript, HTML and CSS. I have received recognition for my outstanding performance with an **Outstanding Performer Award** from Techversant infotech. Moving forward, my goal is to continue honing my skills and contributing to the success of innovative software development projects. I am eager to take on new challenges and collaborate with cross-functional teams to deliver high-quality software solutions.

Skills

- Angular
- Javascript
- HTML
- CSS
- PWA, SPA, SSR
- REST API
- GIT
- Socket io
- Ngrx
- IndexedDB
- JWT
- Knowledge in React and Node

Education Background

- BCA
  2013 - 2016
  MS University, Tirunelveli

- MCA
  2016 - 2018
  MS University, Tirunelveli

Professional Experience

💼 Enfin Technologies

Jun 2018 - Feb 2020

Served as a **Software Engineer** at Enfin Technologies, contributing to the development and maintenance of software applications. Utilized skills in Angular, JavaScript, HTML and CSS to deliver high-quality code and meet project requirements. Collaborated with teammates to implement new features, fix bugs, and improve performance.

Project 1 : Board Room (Video Conference Application)

Responsibilities : UI Development and video functionalities integration

Technologies : Angular 6, SimpleWebRTC

Project 2: Redback-webconnect(Video Conference Application)

Responsibilities : API Integration, UI Development

Technologies : Angular 8

Important modules handled:
- JWT token based authentication
- Chat integration with Socket io
- Meeting room creation with webRTC
- Server side rendering with angular universal
- Progressive web app creation

💼 Worked as a Freelance Web Developer

March 2020 - Oct 2020

Project : Vieroots (Ecommerce Application)

Responsibilities : API Integration, UI Development

Technologies : Angular 10

💼 Techversant infotech

Nov 2020 - Present

Currently serving as a **Senior Software Engineer** at Techversant infotech. Collaborating with cross-functional teams to design and implement software applications that meet client requirements. Providing technical guidance and mentorship to junior engineers. Received the **Outstanding Performer Award** for exceptional contributions to the team and project success.

Projects : CCA, IVSM (Product data capturing applications)

Technologies : Angular 13

Responsibilities : API Integration, UI Development

Important modules handled:
- Text OCR integration
- Image crop image compression integration
- Store and retrieve data with indexeddb
- Barcode scanner integration
- User role based authentication
- Dynamic form creation
